# ORACLE SCHOOL

## Video 3:
## Oracle Cards

- Oracle Cards are a vocabulary or lexicon of pictures, images, symbols and metaphors that Spirit and your unconscious uses to talk to you. They are like an interpreter and open up a doorway to the potential of human experience.
- The cards come alive when you pick them up, because you ask them to. Until then they are just a deck of cards.
- They show you the evolution of your story in motion towards your becoming your highest, deliberate intention for your life.
- The cards show you what's possible, the potential for co-creation, and create a synchronistic event.
- Through use, you get used to the language of the cards and they get used to you.
- The more you use the cards, the more accurate the cards are going to get and the more influence you have on co-creating a better reality for yourself. Spirit learns how to talk to you and through this dialogue you now have information and a choice.
- Every time you pick up the cards, having them open and active and asking questions, it's like tuning in to SOUL-FM.
- SOUL-FM is ALWAYS broadcasting. It only stops broadcasting to YOU when you turn it off, when you're not engaging with the Oracle Cards.
