HI, COLETTE HERE!

In this mini-lesson, I'm going to talk about **how to select an Oracle deck**.

If you do an internet search for Oracle decks, you'll see that there are thousands of decks out there, each with their own unique flavor. And that's really good!! It means you'll be sure to find at least one or more decks that are perfect for you.

So, how do you choose?

Remember- not all card decks are divination systems (*a means to communicate with the Conscious Universe*). Some are hugs from the Universe, some are inspirational messages, and some are affirmations.

The authors themselves will tell you what their deck is for. Read the box and/or guidebook and see if you like the way they write. See if the messages resonate for you? Go to their websites and learn more about them and the inspiration for the creation of their deck(s).

For example: My deck **Wisdom of the Oracle**, is the deck I use to teach with in my Oracle School. It was created as a teaching tool. With the exception of **Postcards From Spirit**, all of my decks are true divination systems. Postcards is different. This was created as if Spirit was a postman delivering a message from a loved one in spirit, a spirit guide, or whoever is out there in the invisible realms. You just choose one card and they aren't intended for readings.

The most important thing is to choose a deck that resonates with you!

Ask yourself:

- What am I attracted to?
- Which deck speaks to me?
- Is the artwork meaningful for me?
- Which deck am I supposed to work with?

Trust in your intuition to feel it out.
