ORACLE SCHOOL

A Note From Colette

Welcome to the first Module of Personal Mastery - the foundation course for Oracle School.

You are here, in a very special modern mystery school, designed for your self-realization and empowerment.

You're now part of a unique tribe of special people from around the world who have come here for the same purpose!

I believe you were all called here because you have something sacred and powerful inside you that wanted to be expressed into the world and were looking for the way.

Well.. the door opened and you are here!

So, let's talk about the course.

The purpose of this course is to show you how to unlock your inherent magic, your innate connection to the conscious universe, to learn how to set your intentions with clarity and passion, and steward them into the world, in partnership with Spirit.

You do this by using oracle cards.

Oracle cards are a powerful instrument for guidance and navigation that serve as an intermediary, a mirror, a bridge and a sacred mystical language, that enables a direct dialog between you and the Divine. You will be amazed when you learn how to harness their power as a personal development and transformation catalyst.

ORACLE SCHOOL

And, that is the point of Oracle School and this foundation course. If you do the work and allow it to shift you, you will become more than you hoped for, and deepen your relationship with your Higher Power and know intimately the magic in the universe. The world is alive brimming with the soul of true magic.

You will discover this here, for yourself, intimately and profoundly.

It will take commitment and some time. Also, a willingness to be in Beginner Mind, when you want to rely on what you think you know, which for some of you might be hard at times, but do not quit before the miracle happens.

You will also be surprised by who shows up for you, and who teaches you the most about yourself and the meaning of life in your group. Life long friendships are made in this place. We are united not by how we define ourselves in the outer world, not by our professions or masks, but by what our hearts believe and our willingness to dive deep into our humanity to find the treasure of our infinite potential hidden in plain sight.

And this is another reason why this place is so magical. We are a community that celebrates our unity in diversity.

Where 2 or more are gathered in the name of co-creation - there I AM.

The course may be delivered over 7 weeks, but you are now part of this Oracle School, and we never close. You will want to continue to share and connect with your peers. You won't ever have to go home ;) You have a new home here.

So let's talk about how this works.

Each module leads into the next and is designed to help you discov-

ORACLE SCHOOL

er and reveal the steps to become your new self. You don't have to be concerned if you don't know your purpose, as it will find you. And, if you are sure of it, you will align with it so beautifully you cannot fail to see results in the outer world. But first, we shift the inside. Then we see the outside form revealed. It is amazing.

You are here because you have been called to transform.

So, as you allow the process to take root in you, you'll observe how this engages synchronicity on a daily basis, and your own intuition naturally becomes more in tune. You will have access to your inner oracle, that is already connected to the vast resources in the Realm of Spirit, and you will see how your authentic self will begin to arise. This, in turn, will naturally and effortlessly become a part of your capacity to influence events and shape your own destiny in service to the Highest Good.

This is not a theory. If you are willing to claim this awareness you will experience this- sometimes quickly sometimes slowly, but it will materialize if you do the work. And the work can be deep, but it can also be FUN!

You have within you the spark of the Divine, the capacity for miracles, and the blueprint and spiritual contract for a life beyond your imagination.

By immersing yourself in this course you will naturally drop the barriers between you and your highest good. You will both embrace your humanity, your Light and Shadow, and become one with Spirit.

You are, after all, an intrinsic part of the connected universe and your authentic integrated self is essential for the harmony of the whole song of Life. We need you.

Your unique inspired authentic life is waiting to be discovered and claimed for the highest good for all. Your success will then be a model for others as you shine your Light brightly into the world, you will be a

magnet for miracles.

I am so thrilled you have joined us at Oracle School, and I can hardly wait to see who you will become as a result of it! There is only one You... And that You, is profoundly and eternally magical!

SO, Welcome To Oracle School... may each day reveal the mystery with love and Light.

Love,
Colette

ORACLE SCHOOL

What You Need to Know (Facebook, Groups etc...)

The main classroom is the group that everyone joins first. That is where you will find documents in the Files section that are important to your experience.

You will notice that I will drop in spontaneously and create files based on subjects I feel are important on that day to think about. All those files live on Facebook and are not meant to be printed.

I will also drop in to do Facebook Live video sporadically in the main room which everyone will be invited to attend. These will likely be around noon EST so all participants can attend.

I tend to do these on the spot, or I decide the day before but they are always recorded in case you missed it.

I am very active in this class, but questions you might have for me, should first be posed to the Master Mentors :- Sharon Lair, Rhonda Read (logistics) Mary Ann Burrows, Jill Foley and Anna Saether.

Doug Upchurch is our head of learning and development for Oracle School, and he is also someone you can tap if you need some guidance on the content.

You will see him on every call with me Tuesdays at 730 pm EST.

Videos pertinent to the concepts you're to consider for the week are posted on each module plus bonus video we overshoot. Some videos overlap and that is done on purpose so you can be reminded of core concepts.

ORACLE SCHOOL

The actual process work - the real magic happens in exploring the card exercises called Homeplay, adding your thoughts in your Oracle Journal and sharing in your group. They are delivered by PDF each week.

You will be sorted by our honorary sorting hat, Rhonda Read! You will be placed into smaller groups for an easier more intimate learning experience, and also assigned to a mentor who will be overseeing a small group of you.

Your mentor is there to encourage you, and to keep you in the mindset that you are in charge of participating in your own rescue and discovery. They will not tell you what your cards mean and they aren't teachers. They are graduates of the certification program and will guide you to keep asking the right questions to discover the beauty of you, by yourself.

Your magic can only be uncovered by you.

We're super conscious of the tendency of magical healer types to want to go to the rescue of others. This only serves to enable a person to avoid doing the work and maintains the false idea that you're only worthy if you are needed and can be helpful. We have fluid but VERY strong boundaries in Oracle School. It takes a minute to get used to it, but you will be thankful for this as you go. Unsolicited advice is discouraged and we typically like to keep the sharing to be about your own epiphanies in the first 3 modules.

Our greatest gifts can sometimes end up our heaviest burdens.

Negative judgment of self or others and comparison of any kind is required to be left at the door when you enter!

Everyone here begins where they are and no one has skills better or worse than the other. Everyone is worthy and everyone is ex-

ORACLE SCHOOL

pected to be compassionate to themselves and others. And having a sense of humor is also a very good thing. The human condition is quite ridiculous when you come to think about it. We maintain that the comedy of life reveals more than a restrictive attitude.

So... here we are... The first week is usually a settling in time and your mentors will give you further instructions.
