

ORACLE SCHOOL

Video 2: Law Of Thought

- Law of Thought states that what we are thinking effects what we are manifesting in the world.
- Brain has a reticular activating systems meaning that our eyes look for the things we're thinking about.

2-card Group Reading – What's the thought that we may be completely unaware of and is there anything else we could miss? What do we have to watch out for? What kind of thinking would limit our manifestation?

- **Anchor Card** – this card tells of what needs to be done, something to think about, something that could be 'hiding in the bushes'.
Mending – talks about forgiveness. If we are thinking in any way, shape or form that we are a victim, unworthy, allowing our story of the past to keep us separate, it means there's a disconnect. Where do we see the Universe as separated? This card reminds us that we are all connected and that the Conscious Universe is a unified field, of which we are a part.
- **Second Card** – What else? Card for further information about the first card. **Tick Tock in Protection** – reminds us to be aware of FOMO (Fear of Missing Out). We're working on Spirit's timetable, releasing things and our attachments to form, to trust that Spirit is going to deliver what is soul-inspired.
- **Action** - What **action** do we need to take in order for all of us to get into alignment with the Law of Thought?
- **Treasure Island in Protection** – reminds us that everything we need, we have to think and to trust that what is meant for us will not go past us. We have to consistently keep our thoughts in alignment with the truth that everything is possible for us and that our needs will be met as long as we put our relationship/ partnership with Spirit first.
