

MODULE 2

Your 2 Support Systems

ORACLE  SCHOOL[®]

Key Learning Points

- *The state of the Neutral Observer will be our desired state so that we can be in the world but not of it. Its motto is “That’s interesting!” Specific Visualization exercises will help you learn how to return to this state. Get on Your Bird is an essential meditation to bring you into neutral observation.*
- *You have two support systems to help you create your unique, authentic, and inspired life: the Conscious Universe and Oracle Cards.*
- *The Conscious Universe operates with a set of Universal Laws that invite us into co-creation.*
- *The Oracle Cards are a lexicon of words and symbols that enable us to communicate with the Conscious Universe. Although they are a system of communication like a telephone or a radio they are inert. They come alive only when you intentionally create a personal relationship with them and begin a dialog.*
- *When you select an Oracle Card, you are creating a Synchronicity Event that allows the Conscious Universe to bring to you the card(s) that is most relevant to your question.*
- *The language of symbolism and metaphor is not an exact language. Allow the symbolism to connect with the Oracle that is within you.*
- *Beginning with an intention, dream, or desire, we partner with the Conscious Universe working from what we are today to influence and co-create what we want in the future.*
- *We must nurture the relationship between our intention and our intuition to be effective co-creators.*

Your 2 Support Systems

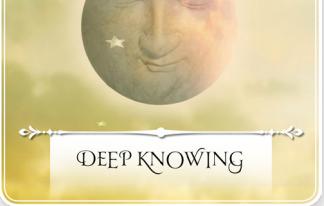

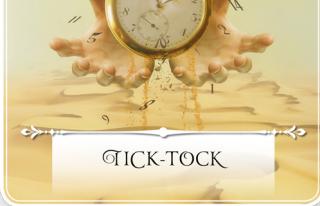

When working with oracle cards you are automatically moving beyond your limited linear awareness as a human 5 sensory being living in a separated material world to a 360 state of awareness as a spiritual multi-sensory being living in a connected conscious universe.

It takes a bit to discover this. In the beginning it's natural to look at the cards and see only a reflection of the limitation, the small self's expectations, bias and memory. It can be frustrating as there is a part of you that knows everything you need is just past a veil. Trouble is you can't always see it so it's easy to remain in the perception of limitation and say the language doesn't make any sense.

**You feel it, subtly and then say I don't get it.
The analytical mind is not the mind that can navigate this.**

So when we approach the oracle as a guide we have to accept that we may initially only know how to be on this side of the veil boxed in by our perceptions and goals. Once you experience the profound epiphany of being witnessed by the cards, it is like the veil lifts and suddenly the world comes alive. Now your intention to become more than you were initiates the web of synchronicity and you being to see things that previously were out of the scope of possibility.

So the two systems supporting you are:

The Oracle Cards which have multiple functions
A language, a mirror, a bridge between you and Spirit, a navigational map, a tool for meditation, a radio to tune into, a phone, a key!

The Conscious Universe, or Spirit
(whatever name you feel connects your knowing) that has distinct laws through which it communicates with us as we call essence into form. This is a reminder that it is the essence of our desire, the energy of our goal that is more important than the form. We learn to step aside and let the Conscious Universe do its thing and show us the reflection in the outer world what our inner world calls for.

We will go into more detail about this in later modules. Just know there is a system in place in both the cards and in the Spiritual laws of success. Remember this course is about self awareness, transformation and how to co-create your reality for the highest good. The magic within begins to show up when you get the hang of moving beyond the veil.

Things to think about: CONSCIOUS UNIVERSE

- ◆ We exist within a connected Universe.
- ◆ It is an intelligent Universe that is not separate from us.
- ◆ We are part of that Divine Consciousness.
- ◆ Self Awareness separates us from this Consciousness.
- ◆ We are here to be an emissary of Spirit; Spiritual Beings living in a material universe.
- ◆ Individuated Persona with talents, desires, that are to be made into reality.
- ◆ Because we are so self-designed by our small self, we can become prisoners of our small self.
- ◆ We don't often know how to navigate the vastness of the world around us because we see ourselves as separate and disconnected from its intelligence.
- ◆ We tend to rely solely on our own will power and ambitions which is an illusion.
- ◆ We have to remember who we are in order to have the life we want.
- ◆ At a deeper level, we know that there is intellectually more than we can feel. We can tap into it and talk to it.

Things to think about: ORACLE CARDS, INTUITION, etc...

- ◆ Because we live in a conscious universe and we lack a way to communicate with the universe, we have some options.
- ◆ Prayer
- ◆ Connection with Divine
- ◆ Intuition and Subtle Senses
- ◆ Our Intuition and subtle senses allow us to deeply know this personal connection to the divine.
- ◆ Oracle Cards serve us as a system of communication that help facilitate a clarity of communication because we can receive guidance that directly engages us in the connected Universe by mirroring to us what we cannot see given the limitations of our human condition - 5 senses and intellect.
- ◆ When we are mostly focused on the human self and its needs and wants, we also limit ourselves to the information that can actually help us meet those needs and desires. This information is hidden in plain sight in the ethers, where the infinite possibility, knowledge, wisdom of the collective and the divine exists.
- ◆ It is in these subtle non-obvious realms that wisdom waits for us to uncover it and integrate it into our experience.
- ◆ Oracles have had a venerated place in history that it's important for us to talk about.
- ◆ Human beings have always looked to the clouds, rivers, fish, and stars for signs that would help them navigate their lives.

Things to think about: ORACLE CARDS, INTUITION, etc...

- ◆ And that they could see that this grander universe cares about them.
- ◆ That there is order in the universe and that we are a part of it. That we matter and there is not just randomness in the Universe.
- ◆ Oracle comes from the latin word Oranum which means to speak and give wise counsel.
- ◆ At the core of the Oracle is communication.
- ◆ In this class, we are only communicating when our intention is to communicate with a higher power that has our and our planet's highest good.
- ◆ It's not about self-interest, it's about how our desires interface with the highest good for ourselves and all.
- ◆ If we are going to use this life wisely, we can either remain asleep and see the world through disconnection and competition for limited resources, or we can wake up and see the abundance of the universe where we can be response-able, collaborative, connected, and nothing is random. Everything is in flux/flow at the speed of our own awakening.

Things to think about: ORACLE CARDS, INTUITION, etc...

- ◆ Let's look at our current system that we'll be using.
 - ◊ Symbols.
 - ◊ Archetypes.
 - ◊ Metaphors.
 - ◊ Depicted on the cards these tell a story of the potential of human experience.
- ◆ Through the magic of synchronicity, or meaningful coincidence, the cards provide us with the information that we need to help us with the question we've asked.
 - ◊ Can't explain the magic of this.
 - ◊ You have to experience it.

Pick up the Oracle Cards and have a conversation with them.

 - ◊ My cards are modernized derivatives of the ancient systems that are made practical and accessible so that we can use them.
- ◆ Oracle Cards themselves are simply beautiful pictures on paper until we have the intention to dialogue with them.
- ◆ A radio that isn't turned on doesn't mean the music disappears, it just means that you can't hear it. The station is always broadcasting.
- ◆ Oracle cards connect to SOUL FM and it's a call-in show.
- ◆ You get to call in and ask the question to get information that you might know that will help you with the question you're asking.
