# Laws of the Universe

ORACLE  SCHOOL

COLETTE BARON-REID'S  
ORACLE SCHOOL

– Intro to the LAWS OF THE UNIVERSE

- ◆ *As we communicate with Spirit, there are divine laws that are true that we need to take into account when we ask our questions of the Oracle.*
  - ◆ *Understanding these laws will help us to better engage the Spiritual World.*
  - ◆ *Answers will come to us in the framework of the connected universe using these and the actions we take.*
- 

– LAW OF THOUGHT

- ◆ ***Law of Thought** states that how we are thinking affects what we are manifesting in the world.*
  - ◆ ***Question:** Is my thinking about this situation limiting the outcome of my reading?*
- 

– LAW OF FREQUENCY AND MAGNETISM

- ◆ *Our thoughts send out a signal which is the Law of Frequency and the Law of Magnetism will draw to us that which we reinforce by the signals we send out*
- ◆ ***Question:** Are there any signals I'm unknowingly sending out by my thoughts, feelings, beliefs or actions, that are automatic and repetitive and are magnetizing messages or experiences to me that I don't want?*

# Key Learning Points

## – LAW OF FORGIVENESS

- ◆ **Law of Forgiveness** says that if we surrender whatever is or is not the way we want it to be, we open ourselves back up to Spirit in places where we might have been blocked previously
  - ◆ *Inventory*
  - ◆ **Question:** Are there any blame, resentments, or judgment of situations or persons, including myself, that I need to release and forgive to open myself up more fully to Spirit?
- 

## – LAW OF UNLIMITED POTENTIAL

- ◆ **Law of Unlimited Potential** says everything is connected and everything is possible in Spirit, but our human mind is often limited by our own experiences and imagination. This can block the acceptance of the form that Spirit has in mind for us that might be outside the limits of our human mind. This is why we often ask for that which is in our highest good as it might be outside of our human mental limitations, but not Spirit's. This is also why we can often be stuck on a specific form and miss what Spirit has in mind for our highest intention.
- ◆ For example, when we think the guy we're with is amazing, but there is really a better one in Spirit's plan
- ◆ The first guy is a sign of land for the real one.
- ◆ **Question:** Do I have any limiting beliefs that are preventing the Law of Unlimited Potential from acting fully in my life and this reading?

# Key Learning Points

- *Oracles will meet us where we are, but we also want to go beyond that.*

---
- *This requires us to shift our thinking and get out of our own story.*

---
- *In the process of Alchemy, it is not just a series of steps that the Alchemist must perform to achieve the results. It is about the participation and quality of attention of the Alchemist that places the power in the process.*

---
- *It is through our intentional and active co-creation with Spirit that enables the Oracle process to be a form of alchemy. As a result, in Alchemy, the whole is greater than the sum of its parts.*

---
- *So shifting our thinking and getting out of our own story is about clearing and releasing the Alchemist so that the Alchemy can be even more powerful.*

---
- *As an example, when we release our old ideas and stories, we begin to have access to unlimited potential because it's not longer personal. This brings us into conscious alignment with Spirit and the Laws of the Universe.*

Things to think about:

# TIME AND SPACE READINGS

- ◆ A power or process of transforming something common into something extraordinary. This is about the difference between Linear vs Connected thinking and time
- ◆ We see things in the past as behind us and the future is in front of us, but the reality they're all intrinsically interconnected within both a spiral and a woven fabric. They cannot be separated.
- ◆ Acknowledge what you've learned from the past to keep it as wisdom, but don't identify yourself with your past story.
- ◆ You may come around to something again, because you need to visit it again on a higher level (Spiral-Gregg Braden, Fractal Time).
- ◆ You look at the future and think that it's out there, but it's in fact created right now (Fabric).
  - ◇ There is not always a cause and effect in a linear way.
  - ◇ We can't separate the past from the present or the future
  - ◇ However we can change our present and therefore our future as well as the impact our past has on us today, by changing and rewriting our perception of the stories we hold about the past through the law of forgiveness.
- ◆ Something that happened in the past may show up in a reading today in a way to show you that a seed for the future has been planted and then you can decide whether you need to course correct.
