WHAT IS SHARE WISDOM?

Video Summaries

SHARED  WISDOM

WHAT IS *Shared Wisdom?*

- ▶ Various ways of defining wisdom – wisdom as knowledge and wisdom as insight. Both are slightly correct but can't exist without the other, without the word 'integration'.
- ▶ Wisdom means integrated knowledge and insight.
- ▶ Transpersonal State means we go above EGO and personality into the more esoteric realm of story telling. It takes practice and is sometimes uncomfortable but that's what we're here to learn.
- ▶ Knowledge is an accumulation of experience.
- ▶ Entering the course with things from our past that have been conditioned, knowledge that many not be the kind of knowledge we may want to bring. Acknowledge it as part of our wisdom i.e. integrated the understanding.
- ▶ The place to tell the stories in motion is our journals. Journaling is a number one priority so that we have a 'dumping ground' for the story until the threads that are transpersonal can be found.
- ▶ Keep looking for the diamonds, the threads that are at the bottom of the story. Insights come from journaling.
- ▶ The ability to see beneath the surface of things enables us to take knowledge and integrate it with an insight, and this becomes our wisdom, and that's what we share with others.
- ▶ Some of the course is about learning a new skill e.g. different decks, spreads.
- ▶ Cannot get to the insight without the knowledge.

- ▶ Relax...wisdom takes time.
- ▶ Striving for consistent integration on a daily, weekly, monthly basis until reaching the mentor training which is a different way to communicate.
- ▶ Wisdom is something you own and comes with humility, calmness, enthusiasm, willingness and teach ability.
- ▶ No rush in this course. Just remember to stay out of your story, keep your stories to your journals, and come back with the integrated insight and share it, or ask for assistance to integrate.
- ▶ Sharing is not teaching.
- ▶ During the course keep in your mind here's where I was, here's where I am now, here's what I have integrated from this, and here's what I'm open to learning new.
- ▶ Always a process of understanding when it comes to the word 'wisdom' and when it comes to imparting that wisdom.
- ▶ Always sharing the integrated, transpersonal, higher wisdom version of the story. Learning a new language.
- ▶ During the course you'll learn a bit about being able to tell the story without the story being told in landscapes.
- ▶ Entire course is perception and perspective.
- ▶ Once you get the hang of everything it makes us the most profound, most powerful manifestors.
- ▶ This is about the transpersonal story not the personal story, even though it's going to effect us in the most beautiful, intimate and personal way.
