

New Moon in Leo

SUN & MOON LEO

Fixed (*Purposeful, Rigid*) Fire energy

This is a period to shine your light in the world. The heaviness of last month's eclipse picks up the pace from the slow and steady mode to get out and literally sing, exercise or DANCE! It's once again time to be seen and have fun.

Leo is all about being "regal", loyal, assertive and creative.

Potential: Jupiter is right at home in Sagittarius, and is shining its rather large spotlight (and more fire) on the energetic fiery trio of the Sun, Moon and Mercury (returning to direct motion).

Opportunity: Uranus is providing a "prod" inviting this New Leo Moon to create, break free of past restrictions, and at last launch what was previously in the works. The invitation and opportunity are shining your beautiful light in your own, unique and creative way.

Intention: Consider how and where you can express your creativity and shine your light for the highest good. Now more than ever, you're invited to show up and show off - strut your stuff and light a path for others.

Consider this too that you are meant to be a conduit for the Divine and bring your beautiful uniqueness to the world. The Divine Light shines through you, so why not let it? ENJOY this New Moon!!

The crystal that I like to work with for this energy is Citrine for joyful expressiveness, exuberance, happiness, and letting go of any and all negativity. Citrine is a stone that teaches how to create abundance by taking action from an enthusiastic, heart-based place. It helps us recognize the value in all that we have, teaching us gratitude and the lesson that true abundance is not about monetary worth.

Here is a three-card spread that's perfect for working with this awesome energy:

- Card 1: What do I need to focus on to be more generous with my gifts?
- Card 2: What do I need to do to build my confidence?
- Card 3: What do I need to do to feel more love for myself so that I may share that with others?
