

Postcards From Spirit

HI EVERYONE!

Welcome to another deck overview! Today I'm talking about my fourth deck, **Postcards From Spirit!**

Postcards from Spirit is my most unusual deck. It came out of a hilarious vision I had when I was meditating and saw a mailman with angel wings delivering mail. Then, I had the thought, "Wouldn't it be cool if we could receive postcards from Spirit?"

This vision came to me just after I had shot my TV show, *Messages From Spirit*, where I was like this mailman, delivering messages. This deck was my way of giving a nod to mediumship, like a gift back to Spirit to say *thank you for allowing me to do mediumship*.

This deck is unlike my other Oracle Card decks, because **it's not meant to be used in readings**. It's designed to be read as a postcard for the day from Spirit. So, you choose just one card for the day!

Each card in this playful deck begins with "Dear You" and ends with "Love Us". It's as if all of your loved ones in Spirit, your guardian angels, and guides were sitting together and writing you a postcard.

The artwork created by my artist Jena for this deck had an antique and painterly feel, as if this was an old postcard that was made in the 20s. I love that each one also has a postage stamp that says *2 Cents from Heaven!*

Overall, this is a playful deck to help you center your day. It's not meant to be used in multiple card readings or in a reading for someone else, unless they want a message from Spirit.

I love sharing my decks with you!

See you next time!
